

- Main Screen of the App
- User Could select Sign In/Sign Up

A mobile app sign-up screen with a dark gray border. The title "Sign Up" is centered at the top. Below it, a red error message "Username already exists" is displayed. The form includes three input fields: "Username" (with a character count "2/8"), "Email", and "Phone". A checkbox labeled "Care Provider" is located below the input fields. At the bottom, there is a "Sign Up" button.

- Delete selected patient

A mobile application screen with a dark grey header bar. Below the header, there is a white content area. At the top left of the content area is a back arrow icon. To its right is the text "Patient Name". Below this is the text "Record ABC". Further down are the labels "Title", "Comment", and "TimeStamp" followed by the value "12:00:00". Below the timestamp is the label "Geolocation" followed by two radio buttons, one labeled "Yes" and one labeled "No". Below the radio buttons is a button labeled "Upload Photo" and the text "Photo Description". At the bottom is a rectangular box with a diagonal cross inside, labeled "Image".

Upload Record Image

Step 1 : Select the body part

☒ Front

☐ Back

Next

- Adding a body image on a record

The image shows a mobile application interface for uploading a record image. At the top, there is a back arrow and the title "Upload Record Image". Below the title, it says "Step 2 : Add point to area you want to report". There is a button labeled "+ add points". The main area is a large square with a diagonal cross, labeled "Image" in the center. There are three red 'X' marks on the image: one on the left side, one on the right side, and one near the bottom center. At the bottom, there is a button labeled "Next".

- Adding points on the body image
- Clicking the point to pop up the window
- Upload the body image in the popup window
- Enter the title of the image uploaded

← **Upload Record Image**

Step 3 : Review the Description

Point_name_1:
My finger is bleeding. Yummmmmm~~~~~

Point_name_2:
